Histogram

Histogram of arrivals
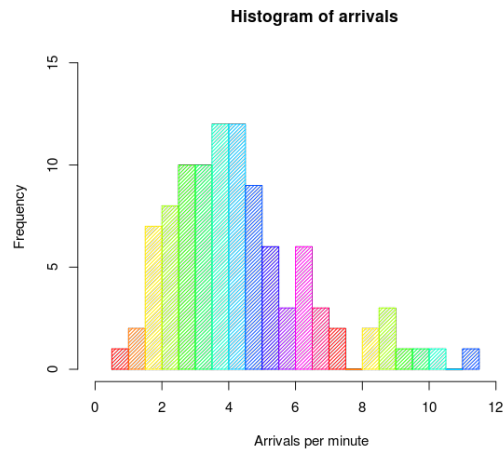

- Develop a CLI that renders a histogram to the standard output.
- Flexible enough to be reused to render a histogram in a different context: such as a raster or vector image.
- Heavy emphasis pretending this is a system you would deploy

```
$ ruby hist.rb
 values     = [1, 4, 3, 2, 13, 23, 5, 15]
 bin_width = 5
 Histogram:
 [0,5)        (f=4)    ####
 [5,10)       (f=1)    #
 [10,15)      (f=1)    #
 [15,20)      (f=1)    #
 [20,25)      (f=1)    #
```
